

SSI-DQ67EP

Experience the eco-friendly Small Form Factor (SFF) desktop platform powered by the 2nd generation Intel® Core™ vPro™ processor family (Sandy Bridge).

The **SSI-DQ67EP**, coupled with the latest Intel® Active Management Technology (Intel® AMT) 7.0, provides the unprecedented secured and seamless PC remote management in SFF platform, featuring the latest SuperSpeed USB 3.0, SATA 6 Gb/s technologies, and triple graphic port options. If you're looking for a high end appliance for your digital signage solution, the **SSI-DQ67EP** is the perfect solution.

SherPlayer SSI-DQ67EP

FEATURES

- Intel® vPro Technology
- 100% Intel MB / CPU
- Intel® Clear Video Technology
- RS232 Serial Port
- Intel® Active Management Technology (AMT)
- Mini-ITX Form Factor
- (2) USB 3.0 Ports
- (1) PCIe 2.0 Port
- Intel® Quick Sync Video

Specifications

Processor	Intel i5 vPro Processor Series and i3 LGA1155
Operating Systems	Linux, Windows 7 Pro, Windows XP Pro for Embedded Systems, Windows POSReady 2009 <i>Call for other options</i>
Chipset	Intel Q67 Express Chipset
Hard Drive	160GB 7200RPM HDD or 40GB SSD Drive <i>Call for Other Options</i>
Memory	Supports DDR3 1333 /1066 MHz DIMMs <i>16GB Max</i>
Dimensions	7 3/8" (D) x 2 5/8" (H) x 8 3/8" (W)
Ports	(4) USB 2.0, (2)USB3.0, (1) RS232
Graphics	Video Output: DVI-I, DVI-D, and Display Port <i>Integrated Intel HD 2000 Graphics</i>
Warranty	Included: 1 Year Depot , Optional: 3 Year Depot
LAN	10/100/1000 Mbits/sec, 802.11 b/g/n
Expansion Slots	(1) Mini-PCI Express connector (half length support)

SSI-DQ67EP

What is Intel Quick Sync Video?

Intel Quick Sync Video, built right into 2nd generation Intel® Core™ processors, is breakthrough hardware acceleration that lets you complete in minutes what used to take hours. Create DVDs or Blu-ray* discs, edit videos, convert video files for your portable media player, and convert videos for upload to your favorite social networking sites—all in a flash.

PCs with Intel Quick Sync Video can convert HD video content for a handheld device twice as fast as PCs based on previous generation Intel® Core™ processors.¹ Instead of waiting for your video, your video is waiting for you.

HD Video Conversion Speed

Previous Generation

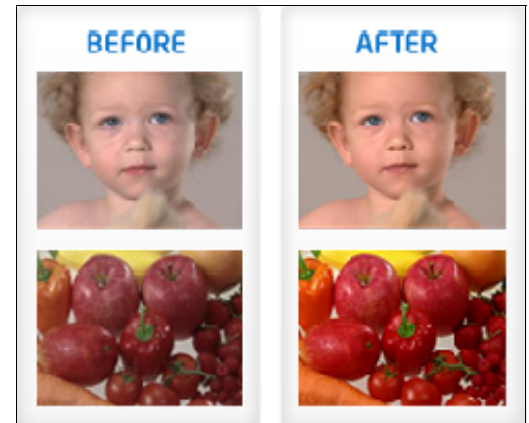

2nd Generation Intel® Core™ Processors

2x faster

What is Intel Clear Video HD Technology?

Intel Clear Video HD Technology is a suite of hardware and software technologies built into the image and media processing engine on 2nd generation Intel® Core™ processors. This technology enables enhanced high-quality, 1080p, high-definition playback, including for Blu-ray* and Web streaming content.

Intel® Clear Video Technology is a combination of video processing hardware and software technologies for a wide range of digital displays. It delivers enhanced video playback, sharper images, and precise color control for a premium visual experience.

Intel AMT and vPro

A major barrier to IT efficiency has been lowered by **Intel® Active Management Technology** (Intel® AMT), a feature of Intel® Centrino® with vPro™ technology and Intel® Core™2 processor with vPro™ technology. Using built-in platform capabilities and popular third-party management and security applications, Intel® AMT allows IT to better discover, heal, and protect their networked computing assets.

MANAGE THE PC VIRTUALLY ANYWHERE, ANYTIME

Intel vPro technology is a set of security and manageability capabilities built into the 2nd generation Intel Core vPro processor family, Intel® chipsets, and network adapters.

With security and management features built into the hardware, Intel vPro technology:

- Accelerates data encryption/decryption using Intel® AES New Instructions (Intel® AES-NI)¹, improving user productivity
- Significantly reduces unwanted access to sensitive data on missing laptops using Intel® Anti-Theft Technology (Intel® AT)²
- Allows IT technicians to quickly deploy security patches across PCs, remotely unlock encrypted drives, and manage data security settings
- Gives IT help desk personnel complete control over a PC with features like KVM Remote Control³
- Enables IT to remotely troubleshoot and repair PCs
